SPRING / SUMMER 2025

Trade Catalogue

Welcome

Since its beginning, WoodWick® has created multi-sensory experiences that add a personal, elegant finish to the home. WoodWick® candles with distinctive wooden wicks, sophisticated fragrances and premium designs, provide a unique experience to indulge the senses.

Our patented wick designs create a beautiful even burn and evoke the soft sounds of a crackling fire. While the trend forward fragrances create an atmosphere that feels tailor made.

The WoodWick® range provides little moments of luxury and offers a chance to express style in every space.

Read on to discover more about the Spring / Summer 2025 **NEW** range.

NEW *Fragrances*

Emerging fragrance trends have inspired the introduction of new seasonal scents, based on key trending ingredient notes such as vapour steam, rainy mist and rock moss.

VAPOUR TRAILS

Even in the mundane, there can be movement. A sunbeam catches a cloud of dust suspended in the air. Soil trembles with energy just before a storm. Plants create their own sustenance right under our noses. The vapour trails collection invites you to look closer at the effervescent moments you experience every day …and dissolve in them.

NEW LABELS

New | TERRA HAZE

Petrichor, the refreshingly vivid scent of rain on soil, evokes the sense of nature being stripped down to its molecules. Notes of aldehydes, cedarwood, and mossy earth climb toward the sky, dancing back into the atmosphere like mist.

FRAGRANCE *Descriptions*

White Teak
A nuanced blend of aromas: crisp balsam branches mixed with sandalwood, and oak with hints of moss-of-tree and cedarwood.

Vanilla Bean
Indulge in the rich, sumptuous scent of vanilla bean.

Manuka Nectar
A nuanced, fruit-forward scent experience with fresh peach, honeycomb, warm vanilla, and soft floral notes.

White Tea & Jasmine
Notes of pure white tea with a hint of jasmine gently blended with scents of red cedar and rose.

Fireside
Our signature fragrance balances the rich scents of amber, vetiver and musk to perfectly capture the essence of a perfect evening by a warm fire.

Crimson Berries
Aromas of juicy Christmas berries blended with a touch of warm spice and mistletoe essence.

White Honey
Scents of sweet candied orange blossom with cascading vanilla orchid and roasted toffee.

Warm Wool
Dreamy scents of warm wool and wild flowers for the perfect finishing touch in any room.

Cinnamon Chai
Relish the warm, intoxicating aroma of spicy cinnamon and rich vanilla notes.

Linen
The fresh scent of crisp, clean linen drying in a warm summer breeze.

Cashmere
An unexpected combination of fragrance notes – including sandalwood, tonka bean, and quince – blend to create a sumptuous, compelling scent.

Phantom Cherry
A spectral, haunting quality permeates through the trees with scents of dark cherry, amberwood, cashmere, and smoked vanilla.

Island Coconut
Lush scents of juicy pineapple blended with creamy coconut create the perfect tropical treat.

Santal Myrrh
A sweet and woody incense-like fragrance composed of mahogany, lemon, and golden amber notes.

Black Cherry
The indulgent sweet scents of juicy, ripe black cherries.

Solar Ylang
Scents of fresh bergamot arranged in a sweet white bouquet of jasmine, tuberose and ylang-ylang. Ending with musk and creamy sandalwood notes.

Gilded Sands
Desert air notes blend with the scents of fig and guaiacwood to embody magnificent mysteries.

Spiced Blackberry
Delightfully rich blackberry and cinnamon filling inside a flaky, vanilla-drizzled Danish.

VISUAL MERCHANDISING

Visual Merchandising is about presenting your products in the most attractive way to engage and motivate the consumer towards making a purchase. This is done by creating displays that accentuate a product's appearance, features, benefits, and uses in a visually compelling way and presenting them in a way that drives tangible increases in revenue.

STORE DESIGN

Store design, furniture, lighting, cleanliness and product layout, all play an important part in creating a great environment to engage the consumer, giving them a reason to shop, browse and make a purchase.

Whether you're creating a small, medium, or large shop floor layout, WoodWick® can offer you branded furniture and recommend what products to display to increase consumer interaction and optimise sales results.

CANDLE CARE TIPS

WoodWick® candles can occasionally display different burning characteristics than other candles.

Here are a few simple steps to enjoy the best burn every time.

1

ALLOW WAX TO POOL

You will experience the best burn results when the candle remains lit for 3-4 hours. For the Ellipse candles with Hearthwick® Flame, light the wick on one end and allow the flame to flow naturally across the wick.

Make sure that the wax melts to the edge of the candle before extinguishing it – this may take between 30 to 60 minutes. Allowing the wax to pool will discourage 'tunnelling' or leaving wax on the sides of the vessel.

The flame height may vary at times and occasionally even appear to self-extinguish, but this is normal. Even if you are experiencing a 'low' flame, it will continue to heat and the flame height should return.

2

KEEP THE CANDLE WITHIN SIGHT AND AWAY FROM DRAFTS

Always place the candle on a flat, heat-resistant surface, and make sure to keep the candle away from children, pets, flammable materials and other heat sources.

3

NEVER MOVE OR HANDLE THE CANDLE WHILE IT'S BURNING OR WHILE THE WAX IS HOT

To be safe, only move your candle once the flame is extinguished and the wax has completely cooled.

4

KNOW WHEN TO 'TRIM' THE WICK

For the Hourglass candles, the wick should be trimmed to 6mm before each use. Due to the nature of the Ellipse candles, you should not need to trim the wick. The only exception is when the flame exceeds 25mm or the candle begins to smoke.

If you need to trim the wick, carefully extinguish the candle, allow the wick and wax to cool and trim the wick to 6mm by gently breaking off the burned edges with a cloth or paper napkin. Safely remove and discard all wick trimmings and debris before relighting the candle.

5

KNOW WHEN TO SAY GOODBYE

When there is approximately 6mm of wax remaining, it is time to stop using your candle. Extinguish the candle when 6mm of wax remains and recycle it according to your local recycling centre's guidance.
